Oxfordshire Community Land Trust

Oxfordshire
Community
Land Trust

- Registered in 2006 in response to growing housing inequality
- Aim to remove land from speculative market and hold it in local community ownership where it can't be carpetbagged
- Botley site where first project will hopefully soon be starting on site

PUSH takeaways...

- Housing is unaffordable for most people in most cities across the globe
- Land as commodity underlies this
- PUSHING back with alternative approaches essential to save our cities

OCLT's approach

- Continue to secure more land until we have a decent size portfolio that gives cred
- Encourage donations of land and housing, or off market sales at a discount
- Grow membership and funds to support this
- Lobby for change in best value requirement for sale of public and charity land
